Experience

2018-11 - present

Full Stack developer

MSG Systems, Târgu Mureş, Romania

- 2021-04 - present
 - **Client:** Volkswagen
 - **Overview:** Working as a Full-Stack developer on an Automotive project using Java and Angular. My main responsibilities were to deliver new features and work on user tickets and deploying them.
 - **Tools:** Java, Angular, SCSS, MySql, Jenkins, Swagger, Jira, GitLab
- 2019-11 - 2021-03
 - **Client:** Siemens
 - **Overview:** Working as a Front-end developer. My main responsibilities was to deliver new features and closely work together with my colleagues.
 - **Tools:** Angular, SCSS, PostgreSQL, BitBucket, Trello
- 2018-11 - 2019-10
 - **Client:** BMW
 - **Overview:** Working as a Full-Stack developer on an Automotive project using Java and Angular. I mainly helped out my colleagues as I just started my career, but at the end of the project I got my own responsibilities without or with a little help from my co-workers.
 - **Tools:** Java, Angular, SCSS, PostgreSQL, Jira, BitBucket, VirtualBox, Docker

2018-07 - 2018-08
